- Valuable
- Relevant
- Helpful
- Enlightening
- Stimulating
- Engaging
- Interactive
- Challenging

The following are a selection of General Comments on the event

- I found the day helpful and informative. Good to update knowledge re wound care. Useful links to follow up to do further research/learning.
- A very interesting informative day
- More practical sessions needed
- The whole day was fab
- Having references and access to slides after the presentation would be appreciated
- Very informative day
- Would have been good to have practice in groups to encourage discussion
- Too much information to take in one day
- Very friendly and committed team clearly enthusiastic about wound care
- Really easy to find venue
- I was in theatres for 25 years, moved to dermatology OPD and needed to learn a lot about wounds and wound care. WCAUK taught me and gave me confidence to act as a confident RN!
- Have nurses/HCAs up speaking about their experiences

- Good day, very informative. Interesting speakers
- Would like more interactive workshops
- Informative and relevant to my work/role. Good food, breaks were good. Gave time to look at exhibitions which would benefit a lot of my residents with wounds/ulcers/pressure injuries
- A very interesting and informative day
- This day presented in the area of Glastonbury would be very well attended by Somerset nursing homes as geography doesn't support these areas . It's a very much needed resource to attend
- Wonderful to be back in an interactive networking environment
- The exhibitors were great and for the first time coming to an event they were more interested in providing information and helping with ideas rather than selling
- Was very informative and I will take back many ideas to my clinical area
- Was very interesting about varicose veins, will pass on to my family and friends
- Suggest similar event held in Somerset or Dorset
